Group Sorting

Design/ Row Groups = Date / Group Properties . . .

The screenshot displays the SSRS Design View of a report. At the top, there are tabs for 'Design' and 'Preview'. Below them is a table with the following structure:

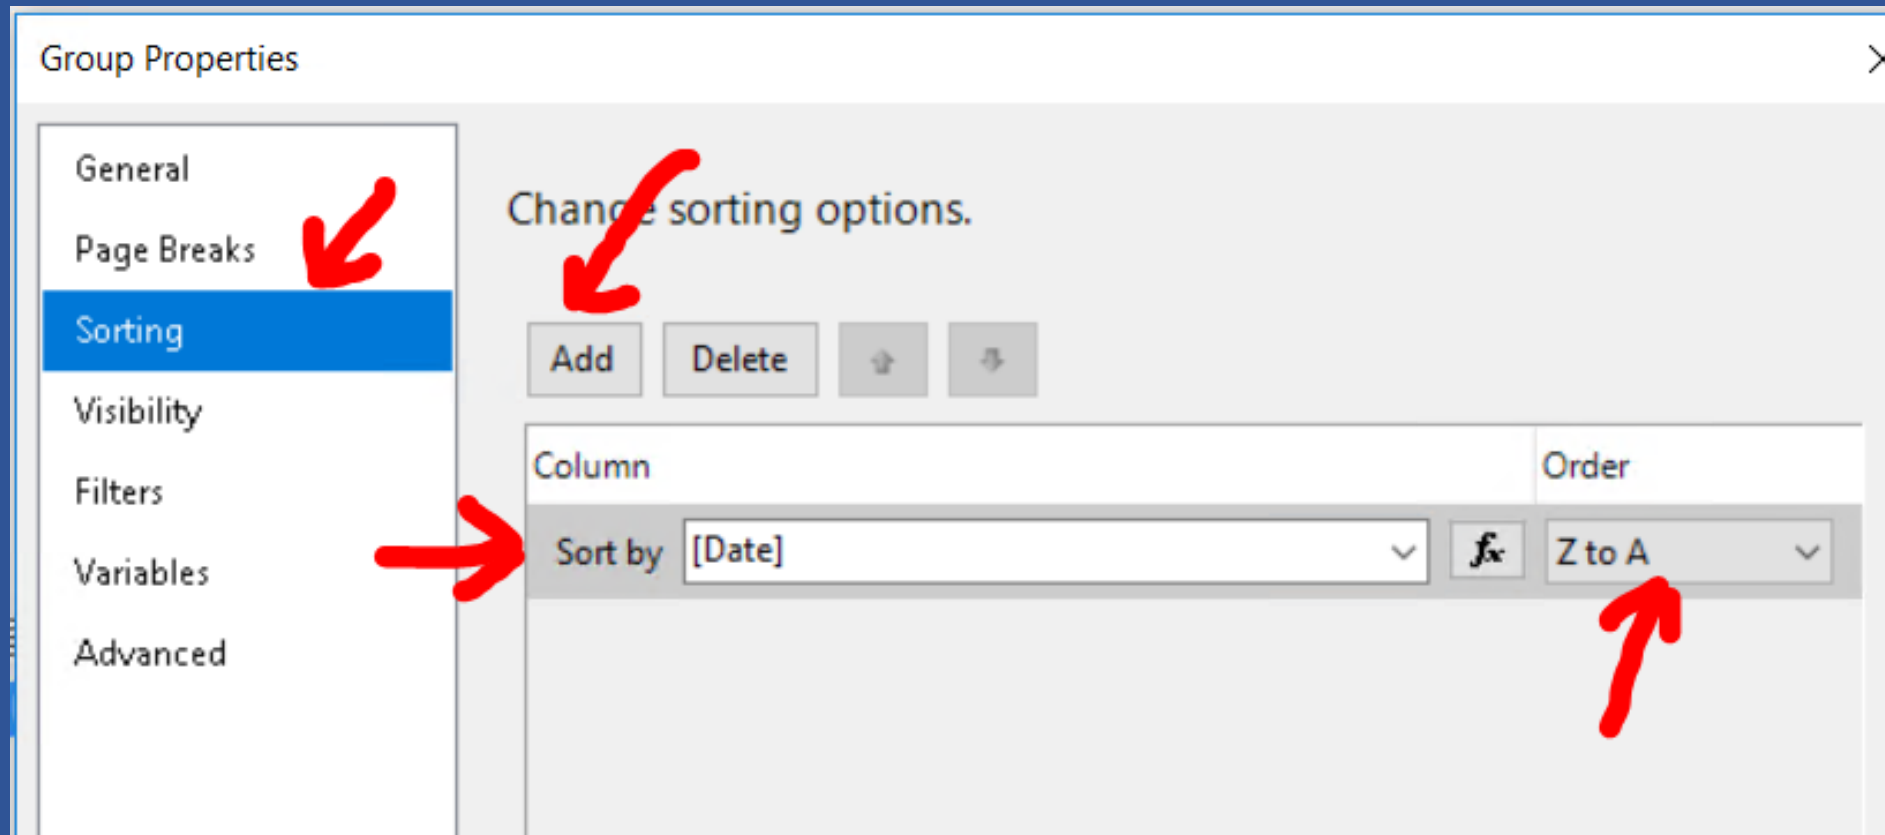

Date	Order	Product	Qty	Line
[Date]	[Order]	[Product]	[Qty]	[LineTotal]
		Order Total	[Sum(Qty)]	[Sum(Li
	Daily Total		[Sum(Qty)]	[Sum(Li
Grand Total			[Sum(Qty)]	[Sum(Li

Below the table is the 'Row Groups' pane. It shows a hierarchy: 'Date' (selected), 'Order', and '(Details)'. A red arrow points to the dropdown arrow next to 'Date', which has opened a context menu with the following options:

- Add Group
- Add Total
- Delete Group
- Group Properties...

Another red arrow points to the 'Group Properties...' option in the context menu.
